

WINE & DINE

Olio

Although **Olio's** menu has more geographical twists and turns than Moses wandering in the Sinai, the reason it's a favorite of ours is simple: we came, we ate, we enjoyed. Somehow this Singaporean chain's new Beijing location handles the profusion of cuisines with aplomb, and despite being trapped in the bowels of China Central Place, still feels homey. Pair that up with speedy, courteous service, zippy Wi-Fi, and eminently affordable prices, and you've got a winner on your hands.
